"Hop-Hop" is a solo show for all audience, duration about 35 minutes.

"Hop-Hop" is a show created for open space events such as Street Art Festivals or open air events but it suits also very well in friendly indoor locations like Circus Tents and small theatres.

"Hop-Hop" is a show based on circus arts, clowning and interaction with the audience. Juggling, handstands, object manipulation and clown are its ingredients. The choice to not use words bring the show on a visual and gestural language, allowing the spectator to get in a empathic contact with the artist and with its imaginary world.
